### UPDATED NATIONAL INCIDENT MANAGEMENT SYSTEM RELEASED

This year's active hurricane and fire seasons highlight the importance of working together before, during, and after disasters of all types and sizes. NIMS provides a common, nationwide approach to enable responders to work together to manage emergency events. Through an interactive process of engagement with officials from across the nation, FEMA revised NIMS. To review the refreshed NIMS document and for additional webinar information, visit: <https://www.fema.gov/national-incident-management-system>.

NIOSH reported that EMS workers face higher occupational injury rates. To view the fact sheet go to [www.cdc.gov/niosh/docs/2017-194/pdfs/2017-194.pdf](http://www.cdc.gov/niosh/docs/2017-194/pdfs/2017-194.pdf).
